ABOUT THE WASHINGTON DECA

YOUTH EQUITY SCHOLARSHIP FUND (YES)

Washington DECA is committed to providing equitable access to programs and teacher support for all students living in Washington State. We strongly believe that cost of membership and registration should not be a barrier to any student hoping to improve their academic performance, achieve college entrance and completion, and develop self-confidence in pursuing career opportunities. We have a collective responsibility to offer more authentic experiential learning to prepare members for college and career; engage students in collaborative project-based learning activities; connect with Washington businesses to give students a realistic insight into a variety of industries; and promote a sense of urgency and confidence in students to improve their relationships and performance.

This is the opportunity that we aim to provide for students, teachers, and community partners through the Youth Equity Scholarship Fund, and strongly believe your support will allow Washington DECA to create this positive impact.

Established in 2019, the YES Fund has provided over \$316,000 in needs based assistance to students across the state of Washington. The scholarships provided access to the following programs:

- Membership Dues
- Fall Leadership Conference registration and travel
- State Career Development Conference registration and travel
- International Career Development Conference registration

“Washington DECA provided me with the knowledge, leadership, and confidence necessary to succeed. Being a member was the most fulfilling part of my high school experience and I am excited for the rewarding impact it will have on others.”

Alfonso Godinez
Lakes High School

SAY Y.E.S. TO WASHINGTON DECA
